PRESS RELEASE

BENELLI 752S FINALLY MAKES IT APPEARANCE IN MALAYSIA MARKET TODAY

PENANG, 5 FEBRUARY 2021 –After the launch of the Benelli 752S in 2018, it is now in the Malaysia market with the recommended price of RM37,888.00 excluding insurance and road tax. This 752S features a modern, dynamic and straightforward design specially made to suit every rider's tastes. For you, this powerful motorcycle come with three colour options; red, black, and green.

The Benelli 752S equipped with a 750cc four-stroke engine has a maximum power of 76Hp when it reaches 8,500 rpm and a maximum torque of 67N.m at 6,500 rpm for continuous and progressive traction. What guarantees a smooth ride throughout the ride is the Marzocchi inverted fork on the front suspension, while on the rear, there is a swinging arm with adjustable mono-shock according to your own preference.

Our main concern is about the safety of the rider. Therefore, this 226kg motorcycle features the Brembo brake system, with a 320mm diameter semi-floating disc on the front and four-piston calliper and a 260mm diameter disc on the rear with a double piston calliper with ABS for front and rear brakes. Fuel for the 752S is carried in a 14.5-litre tank.

In contrast to the others, the Benelli 752S uses an all-digital Thin-film Transistor (TFT) display. Generally, we know a TFT display is brighter and more precise than a regular LCD. It also shows a smoother display or movement.

The Benelli 752S is now available on the market, and you can get it immediately at all Benelli authorized distributor premises. With the purchase of this motorcycle, you can enjoy two-years manufacturer warranty or travel distance 20,000 km (whichever comes first) and online spare parts purchase service by MForce Bike Holdings Sdn. Bhd.

ABOUT BENELLI

Benelli is Power, Technology, Quality, Value and legendary Italian design. Since 1911, Benelli is pure passion.

For more than 100 years, Benelli motorcycles have impressed mightily on the street, in the dirt, and in racing from our capable and affordable scooters, to our high-end, big-bore sport and naked bikes, and everything in between. Benelli motorcycles represent a perfect combination of form and function. With peerless Italian styling from our Italy-based Design Center, to our ultra-modern manufacturing capabilities, Benelli offers motorcycles that not only function superbly, but ones that light your emotional fire.

Benelli. Nothing like it anywhere.
